

G8933

1

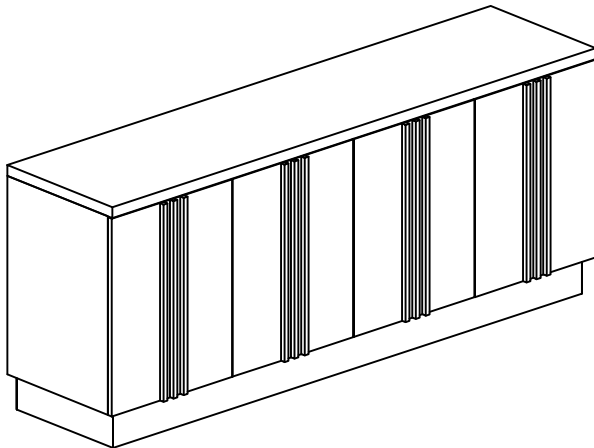

This diagram illustrates the first step of assembly. It shows a long, thin rectangular top panel being lowered onto a cabinet body. The cabinet body has a series of vertical lines on its front, representing drawers or doors. Four arrows point downwards from the top panel to the cabinet body, indicating the attachment points. The cabinet body has a slightly raised base.

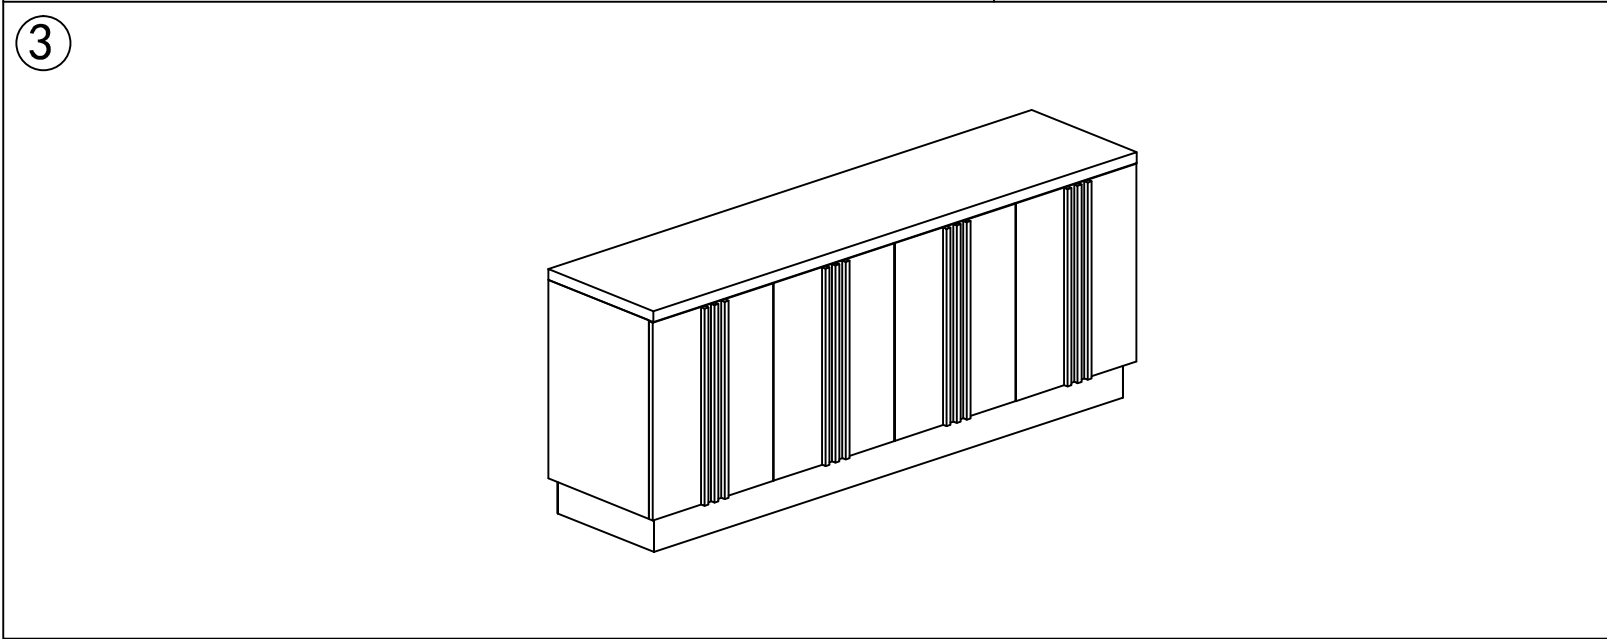

2

③

This isometric view shows the final assembled unit. It is a long, low-profile cabinet with a flat top and a slightly raised base. The front face features four vertical sections, each containing a set of three vertical lines, representing the integrated lighting or display elements. The unit is shown from a perspective that highlights its depth and the uniformity of its design.
